### **FAMILY RESTORATION COVERAGE –**

If, for any reason, you or an eligible member of your family are a victim of identity theft within the term of the program, a professional Identity Theft Recovery Advocate will manage your recovery process to help restore your name and credit as close as possible to pre-event status. We will handle the follow-up, paperwork, and phone calls for you, through a limited power of attorney authorization. Once you report an identity theft, the following actions will be taken to manage your recovery: ♦ You will be assigned your own Recovery Advocate. Your Recovery Advocate will document your case and perform the necessary actions to recover your name and credit history. ♦ Your Recovery Advocate will immediately send a Fraud Recovery Packet to you by email, fax or overnight delivery, with a limited power of attorney form, and instructions for immediate action. ♦ Once you return the forms in the Fraud Recovery Packet, your Recovery Advocate will perform the following actions as they may be required by the circumstances of your case: Place fraud alerts at the three major credit bureaus for you; provide you with copies of credit reports from all three credit bureaus and review the reports with you to identify fraudulent activity; assist you in completing the official identity theft affidavit from the Federal Trade Commission to establish your rights as a victim; contact the Social Security Administration, US Postal Service, Department of Motor Vehicles, among others, to reverse any wrongful information, transactions, or misuse of official documentation as applicable to your case; research and document any fraudulent transactions, false accounts, or contracts signed with creditors, banks, utility companies, leasing agents, medical facilities, etc., and follow up to make sure all wrongful activity is removed from your credit file; work with local and federal law enforcement to try to stop the criminal(s) that are misusing your name; notify Law Enforcement: report your situation and the potential risk for identity theft. If your local police are not familiar with investigating identity theft cases, contact the local office of the FBI or the U.S. Secret Service. For incidents involving mail theft, contact the U.S. Postal Inspection Service. ♦ At the close of your case, your Recovery Advocate will provide confirmation of your return to pre-identity theft status and provide post-recovery follow-up for 12 months. ♦ You will have direct access to your Recovery Advocate by phone, email and fax both for the duration of you case and for the post-recovery follow-up period.

## **Monitoring Services**

**Car/Vehicle Title Breach Monitoring.** Monitors billions of breached records for your monitored car's VIN # and alerts you in real-time of newly discovered breach records containing your vehicle title information.

**24/7 High Risk Transaction Monitoring.** Our monitoring technologies detect transactions attempting to use “out-of-wallet” knowledge-based authentication questions. Examples include bank password resets and credit card activations. Before any significant action is confirmed, you can verify whether the attempt is legitimate or fraudulent. An alert can be sent to the third-party transaction, possibly cancelling the activity. No PII is transmitted with this process.

**24/7 Social Security Monitoring.** Monitors Social Security number (SSN) for suspicious activity. Real-time alerts are sent to help stop any unauthorized SSN use attempts.

**24/7 Dark Web Monitoring.** Real-time alerts to detect exposed personal information online. Personal information may include name, phone numbers, and addresses.

**Change of Address Monitoring.** Monitors for when mail has been redirected through the United States Postal Service (USPS). You can then view whether the change of address is legitimate or not.

**Fraud Alert.** When an alert comes to your member dashboard, you have the capability to easily click on the “Alert – Not me” response. This response will be pushed back to the source of the transaction alert and can sometimes stop the fraudulent transaction before it is completed.
